

THE
MATHEMATICAL MONTHLY.

EDITED BY

J. D. RUNKLE, A.M.,

BACHELOR IN SCIENCE, FELLOW OF THE AMERICAN ACADEMY OF ARTS AND SCIENCES,
AND ASSISTANT UPON THE AMERICAN EPHEMERIS AND NAUTICAL ALMANAC.

VOL. III.

Public Lib.
SEP 1 1861
D.C. 12. 1861

CAMBRIDGE:
PUBLISHED BY SEVER AND FRANCIS.

NEW YORK:
A. S. BARNES AND BURR.

LONDON: TRÜBNER & CO.
1861.

On account of the present disturbed state of public affairs, the publication of the Mathematical Monthly will be discontinued until further notice.

University Press, Cambridge:
Electrotyped and Printed by Welch, Bigelow, and Company.

ALPHABETICAL INDEX.

	Page		Page
Algebra, TODHUNTER'S, Notes from, 52, 53, 54		Calculus, Differential and Integral, by DAVIES, Notice of,	30
— for the Use of Colleges and Schools, by TODHUNTER, Notice of,	62	— by SMYTH, Notice of,	159
— University, by DAVIES, Notice of,	63	Calculus of Variations, A History of the Progress of, during the Nineteenth Century, by TODHUNTER, Notice of,	354
Algebraic Curves, A General Method of finding Tangents to, by HOLLIDAY,	149	Chart and Diagram for facilitating Great-Circle Sailing, by GODFRAY, Notice of,	94
Analysis, On the Diophantine, by A. D. WHEELER,	325	Chemical Physics, Elements of, by COOKE, Notice of,	30
— Spherical, by EASTWOOD,	78	CHURCH, Prof. A. E., Elements of the Differential and Integral Calculus, Notice of,	289
Arithmetic, A Logical Outline of, by BROOKS,	182	Circle, On an Approximate and Graphical Rectification of, by HERSCHEL,	153
— Mean of any Number of Positive Quantities is greater than the Geometric Mean,	69	— On the Quadrature of, by SMITH, Notice of,	291
Astronomical Notices, edited by BRÜNNOW, Notice of,	64	Circular Arc, Time of Vibration in, by GIBBES,	40
Astronomy, A Treatise on, by ROBINSON, Notice of,	125	COLLINS, MATTHEW, Mathematical Notes, 306	
Asteroids, On the Secular Variations and Mutual Relations of the Orbits of, by NEWCOMB, Notice of,	95	Common Measure, Note on the Greatest, by HUNT,	51
BARDWELL, Prof. F. W., Note on the Horizontal Thrust of Embankments,	6	Conics, Spherical, by WOODWARD,	361
BARROW, ISAAC, D. D., The Mathematical Works of, Notice of,	286	COOKE, JOSIAH P., Jr., Elements of Chemical Physics, Notice of,	30
Binomial Theorem, Demonstration of,	54	Cubes of the first n Natural Numbers, Sum of the,	53
Binomials, Note on Powers of,	69	Curves, On the Geometrical Construction of, by Points, by NEWTON,	235, 268
BORDEN, JOHN, Note on the Dependence of Equations,	7	DAVIES, Prof. CHARLES, Elements of Analytical Geometry and Differential and Integral Calculus, Notice of,	30
BROOKS, Prof. EDWARD, A Logical Outline of Arithmetic,	182	— University Algebra, Notice of,	63
Calculus, Differential and Integral, by CHURCH, Notice of,	289		

Determinants, A Treatise on, by OLIVER, 86	Geometry, Descriptive, of One Plane, by WATSON, 133
Diary, The Lady's and Gentleman's for 1861, Notice of, 159	— Elements of, by GREENLEAF, Notice of, 32
— Problems from, 190	GIBBES, Prof. LEWIS R., An Easy Mode of Approximating to the Time of Vibration in a Circular Arc, 40
Differential Calculus, The Claim of LEIBNITZ to the Invention of, by SLOMAN, Notice of, 239	GODFRAY, HUGH, Note on the Problem of the Lights, 38
DODD, JAMES B., Series of Mathematical Text-Books, Notice of, 290	Great-Circle Sailing, or a Chart and Diagram for facilitating, by GODFRAY, Notice of, 94
Earth, On the Conformation of the, Prize Essay, by HILL, 166	GREENLEAF, BENJAMIN, Elements of Geometry, Notice of, 32
EASTWOOD, GEORGE, On Spherical Analysis, 78	Gyroscope, Theory of, by ELLIS, 209
Editorial Items, 64, 160, 192, 228, 292	HALL, A., To Change a Series into a Continued Fraction, 262
ELLIS, THEODORE G., The Theory of the Gyroscope, 209	HENKLE, Prof. W. D., Note on Perfect Squares, 66
Embankments, Horizontal Thrust of, by BARDWELL, 6	HERSCHEL, A. S., On an Approximate and Graphical Rectification of the Circle, 152
Equations, Note on the General Theory of, by EVANS, 256	— Sir JOHN, A Complete Catalogue of the Writings of, 220
— Note on Numerical, by VALLAS, 10	HILL, G. W., Discussion of the Equations which determine the Position of a Comet or other Planetary Body, from Three Observations, 26
— Numerical, of the Third Degree, Solution of, by PORTER, 198	— Prize Essay, On the Conformation of the Earth, 166
— On the Dependence of, by BORDEN, 7	HOYT, Prof. D. W., Note on some Properties of Square Numbers, 12
— which determine the Position of a Comet or other Planetary Body, from Three Observations, Discussion of, by HILL, 26	— Note on Prize Solution of Problem III., p. 25, 67
Equilibrium, Demonstration of the Law of, in the Lever, by STRONG, 283	HOLLIDAY, WALLER, A General Method of finding Tangents to Algebraic Curves, 149
EVANS, ASHER B., Solution of Problem V., No. X., Vol. II., 151	HUNT, E., Note on the Greatest Common Measure, 51
— Prof. E. W., Note on the General Theory of Equations, 256	Hyperbola, Equation and Construction of, by WARNER, 375
FERREL, WILLIAM, Convenient Formulæ for Interpolation, 377	Inclined Plane, Motion on, by SHERWIN, 206
Fraction, Continued, To change a Series into, by HALL, 262	Insurance, by NEWCOMB, 343
Geodetic Formulas, by MATTHEWSON, 71	Interest for Days, Correction of the Methods for Computing Six Per Cent, . . . 67
Geometry, Note on, by POWERS, 185	— Note on a Question in, by PORTER, 255
— Analytical, Note on, by STEVENS, 185	Interpolation, Convenient Formulæ for, by FERREL, 377
— Analytical, by DAVIES, Notice of, 30	
— Descriptive, General Problems from the Orthographic Projections of, by WARREN, Notice of, 155	

Items, Editorial,	64, 160, 192, 228, 292	PATERSON, JOHN, On the Results of Accelerated Velocity,	357
LEIBNITZ, The Claim of, to the Invention of the Differential Calculus, by SLOMAN, Notice of,	259	PECK, Prof. W. G., Introductory Course of Natural Philosophy, Notice of,	128
Lever, Demonstration of the Law of Equilibrium in, by STRONG,	283	Pendulum, by SHERWIN,	312
Magic Table, by MARTIN,	189	Perfect Squares, Note on, by HENKLE,	66
Mathematical Monthly Notices, 30, 61, 90, 125, 155, 190, 259, 286, 354		Polytechnic School at Paris, by WATSON,	320
Mathematical Development, Exposition of the Process of, by PATERSON,	55, 108	PORTER, Prof. J. C., Note on a Question in Interest,	254
Mathematical Notes, by COLLINS,	306	——— Solution of Numerical Equations of the Third Degree,	198
Mathematical Operations, by ROBINSON, Notice of,	90	Prize Essay, On Central and Disturbing Forces, by TROWBRIDGE,	245
Mathematical Works of ISAAC BARROW, Notice of,	286	——— On the Conformation of the Earth, by HILL,	166
MATTHEWSON, Dr. R. C., The Earth considered as a Spheroid of Revolution,	71	——— Spherical Conics, by WOODWARD,	361
MORGAN, H. A., A Collection of Problems and Examples, Notice of,	64	——— The Method of Projections, by WRIGHT,	293
NAPIER's Rules of Circular Parts, Note on,	99	Prize Essays, Report of Committee on,	160
Natural Philosophy, Introductory Course of, by PECK, Notice of,	128	Prize Problems for Students, 1, 33, 65, 97, 129, 161, 193, 229, 261	
NEWCOMB, S., Solution of Problem V., No. IX, Vol. II,	68	——— Solutions of, 18, 46, 104, 130, 162, 194, 230, 280, 349	
——— Notes on Probabilities,	119, 343	Prize Solution of Problem III., p. 25, Note on, by HOYT,	67
——— On the Secular Variations and Mutual Relations of the Orbits of the Asteroids, Notice of,	95	Probabilities, Notes on, by NEWCOMB,	119, 343
NEWTON, Prof. H. A., On the Geometrical Construction of certain Curves by Points,	335, 268	Problem of the Lights, Note on, by GODFRAY,	38
Note on a Problem in ROBINSON's Algebra, by HOYT,	189	——— Remarks on, by PARKER,	34
Note on Successive Derivatives of $\tan \phi$,	70	Problem, Solution of, by TROWBRIDGE,	187
Notes and Queries,	51, 66, 98, 149, 182, 254	Problems and Examples, A Collection of, by MORGAN, Notice of,	64
Notes on Probabilities, by NEWCOMB,	119, 343	Problems and Riders for the Year 1860, Cambridge Senate-House, with Solutions of, by WATSON and ROUTH, Notice of,	61
Numerical Equations of the Third Degree, Geometrical Method of Solution of, by PORTER,	203	Projections, The Method of, by WRIGHT,	293
OLIVER, J. E., A Treatise on Determinants,	86	Quadrature of the Circle, by SMITH, Notice of,	291
PARKER, Prof. W. H., Remarks on the Problem of the Lights,	34	Recurring Decimals, Values of,	53
PATERSON, JOHN, Exposition of the Process of Mathematical Development, 55, 108		ROBERSON, J. F., Square Numbers ending in 5, 25, 75,	150
		ROBINSON, H. N., A Treatise on Astronomy, Notice of,	125
		——— Concise Mathematical Operations, Notice of,	90

ROBINSON, H. N., Elements of Analytical Geometry and the Differential and Integral Calculus, Notice of,	90	TODHUNTER, I., Algebra for the Use of Colleges and Schools, Notice of,	62
ROUTH, E. J., Cambridge Senate-House Problems and Riders, Notice of,	61	—— A Treatise on Plane Co-ordinate Geometry, Notice of,	62
School, Polytechnic, at Paris, by WATSON,	320	TODHUNTER'S Algebra, Notes from, 52, 53, 54	
SCOTT, JOHN, JR., Solution of Problem,	66	Trigonometry, Plane and Spherical, by TODHUNTER, Notice of,	95
SHERWIN, THOMAS, Motion on an Inclined Plane,	206	TROWBRIDGE, DAVID, Second Prize Essay, On Central and Disturbing Forces,	245
—— The Pendulum,	312	VALLAS, Prof. A., Note on Numerical Equations,	10
SLOMAN, Dr. H., The Claim of LEIBNITZ to the Invention of the Differential Calculus, Notice of,	259	Velocity, Accelerated, On the Results of, by PATERSON,	357
Smithsonian Institution, Annual Report of the Board of Regents, Notice of,	190	Vibration in a Circular Arc, Time of, by GIBBES,	40
SMYTH, WILLIAM, Elements of the Differential and Integral Calculus, Notice of,	159	WARNER, JOHN, Equation and Construction of the Hyperbola,	375
Solution of Problem V., No. IX., Vol. II., by NEWCOMB,	68	WARREN, S. EDWARD, General Problems from the Orthographic Projections of Descriptive Geometry, Notice of,	155
Spherical Analysis, by EASTWOOD,	78	WATSON, Rev. H. W., Cambridge Senate-House Problems and Riders, Notice of,	61
Square Numbers, Some Properties of, by HOYT,	2	WATSON, WILLIAM, Descriptive Geometry of One Plane,	135
Squares of Numbers ending in 5, 25, 75, by ROBERSON,	150	—— The École des Ponts et Chaussées at Paris,	351
STEVENS, Prof. M. C., Notes on Trigonometry and Analytical Geometry,	185	—— The Polytechnic School at Paris,	320
STRONG, Dr. THEODORE, Demonstration of the Law of Equilibrium in the Lever,	283	WHEELER, Rev. A. D., On the Diophantine Analysis,	325
Successive Derivatives of $\tan \phi$, Note on,	70	WOODWARD, C. M., Fourth Prize Essay, Spherical Conics,	361
Sum of the Squares of the first n Natural Numbers,	52	WRIGHT, ARTHUR W., Third Prize Essay, The Method of Projections,	293
Technology, Objects and Plan of an Institute of, Notice of,	93	Writings of SIR JOHN HERSCHEL, A Complete Catalogue of,	220
TODHUNTER, I., A History of the Progress of the Calculus of Variations during the Nineteenth Century, Notice of,	354		

CONTENTS OF VOL. III.

No. I. OCTOBER, 1860.

	Page		Page
PRIZE Problems for Students . . .	1	Report of the Judges upon the Solutions of	
Note on some Properties of Square Num-		the Prize Problems in No. IX., Vol. II. .	18
bers. By Prof. D. W. HOYT . . .	2	Report of the Judges upon the Solutions of	
Note on the "Horizontal Thrust of Em-		the Prize Problems in No. X., Vol. II. .	22
bankments." By Prof. F. W. BARD-		Discussion of the Equations which deter-	
WELL	6	mine the Position of a Comet or other	
Note on the Dependence of Equations.		Planetary Body from three Observa-	
By JOHN BORDEN	7	tions. By G. W. HILL	26
Note on Numerical Equations. By Prof.		Mathematical Monthly Notices . . .	30
A. VALLAS	10		

No. II. NOVEMBER, 1860.

Prize Problems for Students . . .	33	Notes and Queries	51
Remarks on the "Problem of the Lights."		Note on the Greatest Common Measure.	
By Prof. W. H. PARKER	34	By E. HUNT, Esq.	51
Note on the "Problem of the Lights." By		Notes from Todhunter's Algebra . . .	52
HUGH GODFRAY, Esq.	38	Exposition of the Process of Mathematical	
An Easy Mode of Approximating to the		Development. By JOHN PATERSON .	55
Time of Vibration in a Circular Arc.		Mathematical Monthly Notices . . .	61
By Prof. L. R. GIBBES	40	Editorial Items	64
Report of the Judges upon the Solutions of			
the Prize Problems in No. XI., Vol. II.	46		

No. III. DECEMBER, 1860.

Prize Problems for Students	65	Note on the Successive Derivatives of tan φ	66-70
Notes and Queries. — Perfect Squares — Problem — Note on Prize Solution of Problem III., p. 25 — Correction of the Method of Computing Six Per Cent In- terest for Days — Solution of Problem V., No. IX., Vol. II. — Note on Powers of Binomials — The Arithmetic Mean of any Number of Positive Quanti- ties is Greater than the Geometric —		The Earth considered as a Spheroid of Revolution. — Geodetic Formulas. By Dr. R. C. MATTHEWSON	71
		On Spherical Analysis. By GEORGE EASTWOOD	78
		A Treatise on Determinants. By JAMES EDWARD OLIVER	86
		Mathematical Monthly Notices	90

No. IV. JANUARY, 1861.

Prize Problems for Students	97	Report of the Judges upon the Solutions of the Prize Problems in No. XII., Vol. II.	104
Notes and Queries. — To Express the Sines and Cosines of the Sum and Dif- ference of Two Angles in Terms of the Sines and Cosines of the Angles them- selves. — In a Spherical Triangle, to express the Cosine of an Angle in Terms of the Sines and Cosines of the Sides. — Note on NAPIER's Rules of Circular Parts	98	Exposition of the Process of Mathemat- ical Development. By JOHN PATER- SON	108
		Notes on Probabilities. By SIMON NEW- COMB	119
		Mathematical Monthly Notices	125

No. V. FEBRUARY, 1861.

Prize Problems for Students	129	Squares of Numbers ending in 5, 25, and 75. By J. F. ROBERSON	150
Report of the Judges upon the Solutions of the Prize Problems in No. I., Vol. III.	130	Solution of Problem V., No. X., Vol. II. By ASHER B. EVANS	151
Descriptive Geometry of One Plane. By WILLIAM WATSON	133	On an Approximate and Graphical Rec- tification of the Circle. By A. S. HERSCHEL	152
Notes and Queries	149	Mathematical Monthly Notices	155
A General Method of Finding Tangents to Algebraic Curves. By WALTER HOLLIDAY	149	Editorial Items	160

No. VI. MARCH, 1861.

Prize Problems for Students	161	Notes. By Prof. M. C. STEVENS	184
Award of the Prizes for Solutions of Prob- lems in No. II., Vol. III.	162	Notes on Geometry. By PIKE POWERS	185
First Prize Essay. — On the Conformation of the Earth. By G. W. HILL	166	Problem. By DAVID TROWBRIDGE	187
Notes and Queries. — A Logical Outline of Arithmetic. By Prof. E. BROOKS	182	Magic Table. By ARTEMAS MARTIN	189
		NOTE. By Prof. D. W. HOYT	189
		Mathematical Monthly Notices	190
		Editorial Items	192

No. VII. APRIL, 1861.

Prize Problems for Students	193	The Theory of the Gyroscope. By THEODORE G. ELLIS	209
Award of the Prizes for Solutions of Problems in No. III., Vol. III.	194	A Complete Catalogue of the Writings of SIR JOHN HERSCHEL. Prepared by the Author	220
Solution of Numerical Equations of the Third Degree. By Prof. J. C. PORTER	198	Editorial Items	228
Motion on an Inclined Plane. By THOMAS SHERWIN	206		

No. VIII. MAY, 1861.

Prize Problems for Students	229	Note on a Question in Interest. By Prof. J. C. PORTER	254
Award of the Prizes for Solutions of Problems in No. IV., Vol. III.	230	Note on the General Theory of Equations. By Prof. E. W. EVANS	256
On the Geometrical Construction of Certain Curves by Points. By Prof. H. A. NEWTON	235	Note on Trigonometrical Formulas. By Prof. R. M. MOORE	258
Second Prize Essay. — On Central and Disturbing Forces. By DAVID TROWBRIDGE	245	Mathematical Monthly Notices	259

No. IX. JUNE, 1861.

Prize Problems for Students	261	Award of the Prizes for Solutions of Problems in No. V., Vol. III.	280
To change a Series into a Continued Fraction. By ASAPH HALL	262	Demonstration of the Law of Equilibrium in the Lever. By Dr. THEO. STRONG	283
On the Geometrical Construction of Certain Curves by Points. By Prof. H. A. NEWTON	268	Mathematical Monthly Notices	286
		Editorial Items	292

No. X. JULY, 1861.

Third Prize Essay. — The Method of Projections. By ARTHUR W. WRIGHT	293	The Pendulum. By THOMAS SHERWIN	312
Mathematical Notes. By MATTHEW COLLINS	306	The Polytechnic School at Paris. By WILLIAM WATSON	320

No. XI. AUGUST, 1861.

On the Diophantine Analysis. By Rev. A. D. WHEELER	325	Award of the Prizes for Solutions of Problems in No. VI., Vol. III.	349
Notes on the Theory of Probability. — Insurance. By SIMON NEWCOMB	343	The École des Ponts et Chaussées at Paris	351
		Mathematical Monthly Notices	354

NO. XII. SEPTEMBER, 1861.

On the Results of Accelerated Velocity.		Equation and Construction of the Hy-	
By JOHN PATERSON	357	perbola. By JOHN WARNER . . .	375
Fourth Prize Essay. — Spherical Conics.		Convenient Formulæ for Interpolation.	
By C. M. WOODWARD	361	By WILLIAM FERREL	377

ALPHABETICAL INDEX	385
